Dear Daniel,

Yes indeed we are looking back at a successful wreck removal of dock 7 at Viktor Lenac Shipyard in Rijeka, in which project came to a successful end by the input of Hidroinžinering as well as Multraship and Mammoet Salvage. We are looking forward to collaborate in future projects. Please do not hesitate to contact us if either salvage or wreck removal cases come by.

Please thanks to your team once more for their input and endless patience to achieve this success.

Kind regards,

Mammoet Salvage B.V.

Daniel van der Zwaan
